ABOUT ME

Software Engineer with 3+ years of experience in backend and full-stack development. Proficient in Java, Spring Boot, Node.js, NestJS, Python, Django, JavaScript and TypeScript. Experienced in RESTful APIs, database management, automated testing and AWS cloud services. Skilled in CI/CD pipelines, application deployment, troubleshooting and performance optimization. Focused on building reliable, scalable and maintainable software solutions.

SKILLS

Programming Languages

Java / JavaScript / TypeScript / Python / PHP

Backend Development

Spring Boot / Hibernate/JPA / Django / Zend / Laminas / Node.js / NestJS

Frontend Development

React.js / Angular / Next.js / HTML5 / CSS3 / jQuery / AJAX

Testing

JUnit / Mockito / Jest / Postman / Unit Testing / Integration Testing / API Testing

Cloud and DevOps

AWS / EC2 / S3 / Lambda / RDS / CloudWatch / ECS / ECR / Docker / GitHub Actions / CI/CD / Nginx

Databases and Storage

PostgreSQL / MySQL / Redis / Firebase

Monitoring and Troubleshooting

Application Logs / Server Logs / CloudWatch Metrics and Alarms / Production Issue Investigation

Development Practices

Git / Pull Requests / Agile/Scrum / Code Reviews / Clean Code / Database Optimization

WORK EXPERIENCE

Sisara Corporation (Pvt.) Ltd. – Maharagama, Sri Lanka

Software Engineer

[08/02/2024 – 30/09/2026]

Tech Stack : Java, Spring Boot, Hibernate/JPA, Python, Django, JavaScript, TypeScript, Node.js, NestJS, React.js, Next.js, MySQL, PostgreSQL, Firebase, AWS, Docker, GitHub Actions

- Developed and maintained backend services using Node.js, NestJS and Python/Django implementing REST APIs, business logic, integrations and database workflows.
- Designed and implemented RESTful APIs integrating PostgreSQL and MySQL databases with frontend applications.
- Developed enterprise backend services for ERP applications using Java, Spring Boot and Hibernate/JPA.
- Built and maintained full-stack features using NestJS, React.js and Next.js, covering frontend development, API integration, backend functionality and deployment.
- Developed backend functionality and data-processing logic using Python and Django for web applications.
- Worked with AWS services, Docker and CI/CD workflows to deploy and maintain applications.
- Managed Git branches, pull requests, code reviews, and clean-code practices within a collaborative development environment.
- Used JUnit and Mockito for Java testing, Jest for JavaScript/Node.js testing and Postman for API testing.
- Investigated application and production issues using application/server logs and AWS CloudWatch metrics and alarms.
- Worked with AWS services, including EC2, S3, Lambda, RDS, ECS and ECR in cloud-based application environments.
- Managed Git branches, pull requests and code reviews while following clean-code practices in a collaborative development environment.
- Used AI-assisted development tools to support software implementation and reduce repetitive development work.

Portion (Pvt.) Ltd. – Nugegoda, Sri Lanka

Junior Software Engineer

[15/05/2023 – 31/12/2023]

Tech Stack: PHP, Laminas, Laravel, React.js, Node.js, jQuery, MySQL, AJAX

- Contributed to backend development of Inventory Management and CRM systems using Node.js, PHP frameworks and MySQL.
- Developed and integrated REST APIs with React.js frontend applications.
- Optimized MySQL queries, stored procedures and database triggers to improve database operations and application performance.
- Implemented backend business logic and data-processing workflows while in collaboration with senior engineers.
- Participated in Agile development activities and collaborated with team members to deliver production features and support application reliability.

EDUCATION AND TRAINING

Bachelor of Science (Bsc)

University of Jaffna

GCE A/L | Physical Science stream

Saranath College , Kuliyapitiya

CERTIFICATIONS

[University Of Moratuwa]
Full Stack Web Development

[Udemy]
The Web Developer Bootcamp
